

It's time to
**Rack
&
Roll**

You and your bike are welcome on the bus.
All Citilink fixed route buses are equipped with
bike racks.

SAVE MONEY

Using alternative transportation, such as bike &
bus, just one day a week can save over \$560 in
total driving costs per year. The bus costs only
\$1.00 per ride and there is no extra charge to
bring your bike.

ENJOY SOME EXERCISE

Ride the bus one way and ride your bike the
other. Extend your range and avoid areas not
conducive to bicycling by riding the bus. Use
this guide to Rivergreenway/bus route access
points.

IMPROVE AIR QUALITY

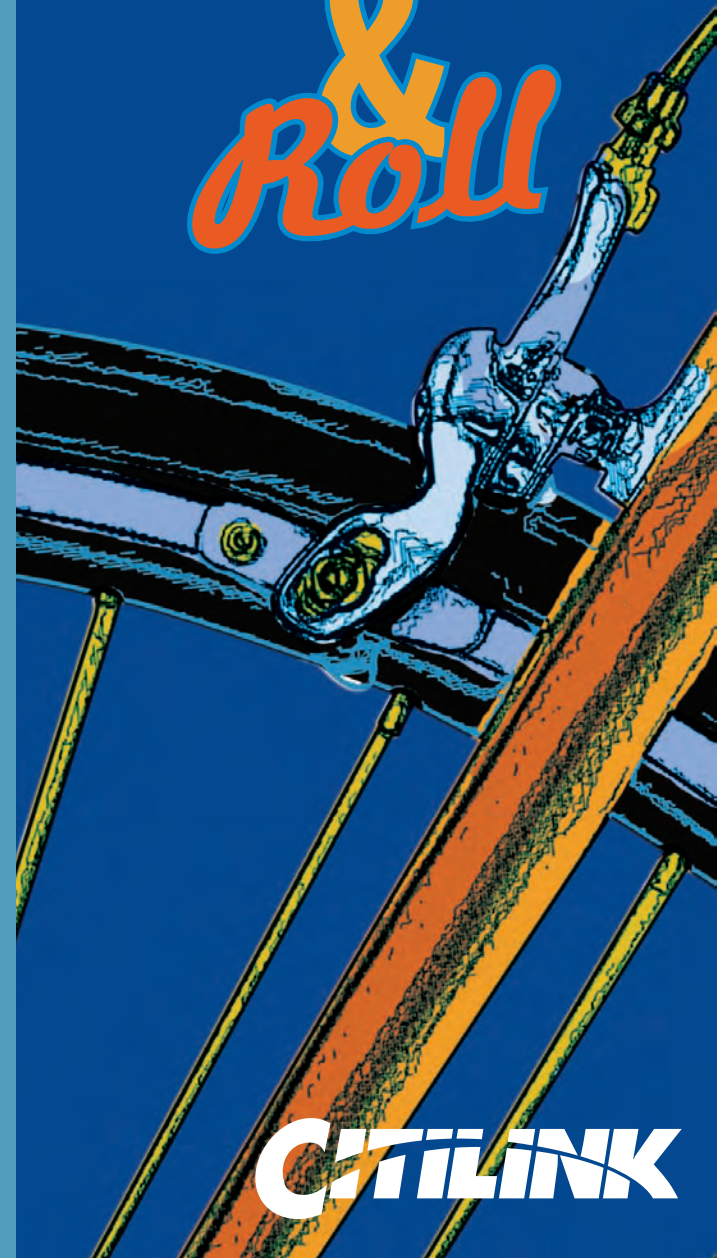

One car emits thousands of pounds of air pollution
and uses an average of 550 gallons of gas every
year. Bikes do not. Full buses mean fewer cars
which also reduces traffic congestion. Fort Wayne's
Clean Air Force encourages you to "do what you
can do"!

You and your bike may board at any Citilink bus
stop or safe intersection along our many routes.
Visit the Citilink website www.fwcitilink.com for
route maps & schedules. You may also call our
customer service representatives at 432-4546 and
they will help you identify the most convenient
location and time to catch the bus. Please arrive
at the stop 5-10 minutes early to ensure your
connection.

Roll**

CITILINK

How to Load Your Bike

Are you and your bike ready to Rack & Roll?

Wait until the bus has come to a complete stop. Tell the bus driver you are loading your bike. Load from the curbside only. Be aware of traffic and blind spots.

1. Pull down the bike rack mounted on the front of the bus by squeezing the release handle and lowering the rack.

2. Lift your bike onto the rack, fitting wheels into the slots. The racks are designed to accommodate standard two wheeled, single seat bicycles. Your bike must fit securely into the rack to be transported.

3. Raise and release the support arm over the top of the front tire. Make sure the support arm is resting on the tire, not the fender of the bike.

Children may use the rack when accompanied by an adult. Always wear a safety helmet when riding your bicycle. Bicycles are not allowed inside of the bus. Citilink is not responsible for bike damage.

Unloading Your Bike

Tell the driver you need to unload your bike as you approach your stop. Unload from the curbside of the bus. Lower the support arm and lift your bike out of the rack. Squeeze the release handle and fold up the rack, if there is no other bike. Make sure the rack locks into place. Return to the curb with your bike, where the bus driver can see you, and wait for the bus to leave. Do not cross in front of the bus.
