

Rider Alert: Fare Collection Equipment

- ◆ For customers who pay cash fares, simply drop the coins in the coin slot or insert a bill in the bill slot.
- ◆ If you are paying a reduced fare be sure to show your ID to the bus driver before paying the fare.
- ◆ The fareboxes are designed to accept any bill up to \$20.00. Let the driver know you are using a larger bill and the farebox can print a stored value "change" card that can then be used the next time you board. The proper amount of your fare will be deducted each time. Ask your driver for details.
- ◆ Transfers, Tickets to Ride, Ten Ride Cards, and Passes all have a magnetic stripe on them. These go right in the farebox (See below).

Citilink reduced fare photo ID cards are available from the Citilink office for \$2.00 and are valid for two years.

*Remember..... Make sure you tell your driver **before** inserting money in the farebox if you are paying a reduced fare or require a change card.*

Thank you for riding Citilink!
